## FUMAGALLI COMPONENTI SPA

is an Italian company certified ISO 9001:2008; leader in the production of electric hand dryers known under the brand names MAGNUM® and FUMAGALLI® since 1962. Fumagalli is today among the market leaders as far as the equipment of the complete washroom is concerned having among its customers the most famous names. Fumagalli designs, develops and manufactures a wide range of products for sanitation by providing innovative solutions with high technological content.

## GLOBAL PRESENCE

The Company, managed by its Executive Vice President Pierroberto Fumagalli, is leader in Italy and known and appreciated throughout the world for the quality, reliability and design of its products. The "Made in Italy" quality is distributed through major sales channels in more than 30 countries.

## BRAND

MAGNUM® is the best known Fumagalli's commercial brand on the Italian market as far as electric hand dryers are concerned, the same are known under the brand FUMAGALLI® in Europe and all around the World. Synonym of reliability, efficiency, safety and performance, appreciated by millions of customers who use our products every day.

## TECHNOLOGICAL EXCELLENCE

Fumagalli is prone to innovation and constantly invests in new machineries and technologies. A careful analysis of market trends, needs and expectations of customers and the attention to the possibility to offer products with a low environmental impact, can be considered Fumagalli's Mission. The high quality standard is always achieved in compliance with the most severe regulations through systematic checks at all stages of production up to the finished product. All machineries are certified.

In our R & D department, unique in the Italian panorama, new solutions come to life making our products unmistakable. The following are the main features of the AIR line:

- Energy saving: low power consumption thanks to the use of the latest technologies;
- Reduction of energy consumption up to 75%. Thanks to the electronic control system ECP, possibility to set - during installation - the hand dryer parameters (such as temperature and air flow) according to end users' needs;
- Maximum Hygiene: no-touch systems and the special UVC lamps cut down the possibility of cross contamination;
- Easy maintenance: the LEM (Long-life Easy Maintenance) patented system allows an easy maintenance doubling the life of the product;

- Maximum safety: safety devices "SkinCare" and "WaterStop" specific for hair dryers.

## WARRANTIES AND RELIABILITY

Fumagalli means professionalism, technical skills, elegance, design and Italian style. Production reliability is certified, not only by International Certification Bodies, but also by testimonials and references of our worldwide customers.

## PRODUCT LINES

Fumagalli is not only electric hand dryers and hair dryers but also:

- Specific products for communities and for washrooms addressed to disabled people such as ceramic, faucets and technical aids;
- Electronic Faucets
- Stainless steel dispenser and bathroom accessories;

Fumagalli is also Contract Division, an internal department which develops and designs tailor made solutions for a customized washroom.
